

DEVANSH BANSAL

Noida, India | devanshbansal500@gmail.com | +919258039923

Profile

- SDE Intern with experience building scalable backend systems and responsive web applications using Java, Spring Boot, JavaScript/TypeScript, React, and Node.js.
- Working on high-traffic fintech infrastructure at Paytm, building microservices and REST APIs with Java 21, Spring Boot, and Maven while supporting reliable CI/CD workflows with Jenkins and Argo CD.
- Previously delivered secure authentication and verification features for UIDAI, supporting national-scale identity services and performance improvements across web and backend systems.

Education

SRM Institute of Science and Technology Kattankulathur, Chennai , 2022 to 2026
B.TECH (CSE-Core)

CGPA: 8.6 / 10

Actively participated in various coding clubs, technical fests, and hackathons, enhancing both teamwork and problem-solving skills.

Professional Experience

SDE Intern, Paytm Payment Services Limited Noida, Mar 2026 to Present

- Developing and maintaining backend microservices using Java 21, Spring Boot, and Maven.
- Architecting and integrating RESTful APIs to support secure, scalable payment-platform features.
- Collaborating on CI/CD pipelines with Jenkins and Argo CD to automate build, test, and deployment workflows.

SDE Intern , Unique Identification Authority of India New Delhi, Jun 2025 to Oct 2025

- Engineered responsive React UI components and production-grade Node.js/MongoDB REST APIs for the Aadhaar Verification Portal, delivering features used by national verification services and improving cross-device performance.
- Strengthened authentication flows and centralized input validation to align with government security and audit requirements while reducing authentication failures.
- Optimized server-side logic and database queries, introduced caching and connection pooling, and reduced average API latency while nearly doubling verification throughput during peak loads.

Areas of Expertise

- | | |
|--|--|
| • Programming - Python, Java, JavaScript, TypeScript | • Backend - Spring Boot, Node.js, REST APIs |
| • Frontend - React.js, Next.js | • Databases – MongoDB, MySQL |
| • DevOps – Jenkins, Grafana, Argo CD | • AI - Natural Language Processing, Machine Learning |

Courses & Certifications

IBM SkillsBuild AI NextGen Certification Program Mar 2026
2026, IBM

Graph Theory Programming, Algo University Jun 2025

Introduction to Generative AI, Duke University May 2025

Data Science, Infosys Springboard Apr 2025

Activities

Google Cloud-Duet AI Workshop, Participant Gurugram, Haryana

- Explored AI-assisted cloud development and integration using Google Cloud tools.

Hackhound 3.0, Participant, SRMIST Delhi NCR

- Collaborated in a team environment to rapidly prototype technical solutions and present innovative product ideas.
